Executive Summary

UX/UI Designer & Web Developer with expertise in user-centered design, wireframing, prototyping, and no-code development. Passionate about crafting intuitive digital experiences that drive engagement and business growth. Skilled in Figma, Webflow, and usability testing. Currently transitioning from freelance work to a full-time UX/UI role where I can make a greater impact.

Experience

October 2024 - Present Raleigh, NC
Web & UX/UI Designer
Wright Web Designs

- **User-Centered Design:** Develop intuitive, user-friendly interfaces by applying UX research, wireframing, and prototyping strategies to enhance user engagement and satisfaction.
- **Web Design & Development:** Design and build responsive, SEO-optimized websites using modern technologies and tools, including Webflow and Figma.
- **Brand & Visual Identity:** Craft visually appealing layouts and designs tailored to each client's unique brand and goals while maintaining consistency across digital touchpoints and devices.
- **Collaboration & Problem Solving:** Partner with clients to understand business objectives, translate requirements into actionable solutions, and deliver custom designs that drive growth.

May 2021 - Mar 2024 Boydton, VA
Data Center Technician
Microsoft

- Led the deployment and support of mission-critical infrastructure by ensuring seamless operation of systems, which required understanding and optimizing workflows for efficiency and uptime.
- Partnered with cross-functional teams to develop user-centered solutions.
- Authored and updated technical documentation to support infrastructure operations, applying principles of clear information architecture and user-friendly communication for diverse audiences.
- Undertook special projects involving complex systems and process improvements, demonstrating initiative, problem-solving, and a willingness to adapt to new technologies and methodologies.

Web Design Business Website

Wright Web Designs was launched to help small businesses establish an online presence. Through this, I refined my UX/UI skills, built websites with Webflow, and collaborated with clients to deliver effective digital experiences. Currently transitioning from freelance work to a full-time UX/UI role where I can make a greater impact.
